

Basic AI training completion certificate

Sample certificate that can be issued when a participant completes the basic HREVN Start training path and passes the linked minimum assessment.

Issued record

Participant	Marta León Ortega
Company	Loma Norte Studio SL
Program	HREVN Start · Basic AI literacy
Duration	2 sessions · 3.5 total hours
Issued on	6 May 2026

What it shows

Scope of completion

- Basic understanding of allowed and disallowed AI use in the organisation.
- Minimum criteria on data, human review and usage limits.
- Training path completed together with a short block-based comprehension check.

Modules covered

Content of the path

- Responsible use of generative tools in a business setting.
- Which data should not enter external tools without prior validation.
- When an AI output needs human review before it is used.
- How training, internal policy and later evidence fit together.

Limit

What this certificate does not prove

It does not by itself prove full legal compliance and it does not replace legal, technical or sector-specific review of the case.

This certificate is a sample HREVN Start artifact. Real issuance depends on completing the training path and the linked assessment.
